

I am writing to register a complaint about Sinclair Broadcasting Company and their decision to promote and air a documentary that slanders John Kerry right before the election without presenting an opposing viewpoint.

A huge corporation is not supposed to be able to control political dialogue ever - but especially not two weeks before a major election. There is supposed to be fair and balanced presentation of candidates and political issues.

This is clearly unethical and a profound danger to our Democracy. This should not be allowed to continue and it is your responsibility to see that it does not. If we don't have clear accountability in media ethics, how can the balance of power essential to our society survive?
